

Hello! TELEDÔC

The future of our healthcare system isn't just about cool technologies, it's about making good healthcare accessible and affordable to people of all walks of life.
Bijan Khosravi – Forbes

Overview

We provide one to one doctor Visit with licensed local GPs, often known as family doctors around the clock as well as online specialist appointment all over Europe. TeleDoc is available as a subscription model for its 24/7 service as well as pay per call for appointment bookings. For Business clients or B2B2C clients we can provide complete custom solutions spanning from simple volume licensed to a fully customised App – even with your own doctors. We value our clients privacy and our System is certified by strict security standards and our datacenters are located in Europe.

When can TeleDoc help ?

For TeleDoc, **time does not matter**, whether it is in the middle of the night or during your lunch break. With the push of a button, you can call our 24/7 GPs, and receive high quality medical advice around the clock, also on weekends.

Where can TeleDoc help ?

It doesn't matter if you are in the beach, on a Business Trip or on the car driving through the countryside. TeleDoc is always with you, with our 24/7 availability **you always have a doctor by your side.** Our doctors are always keen to provide you with high quality medical advice.

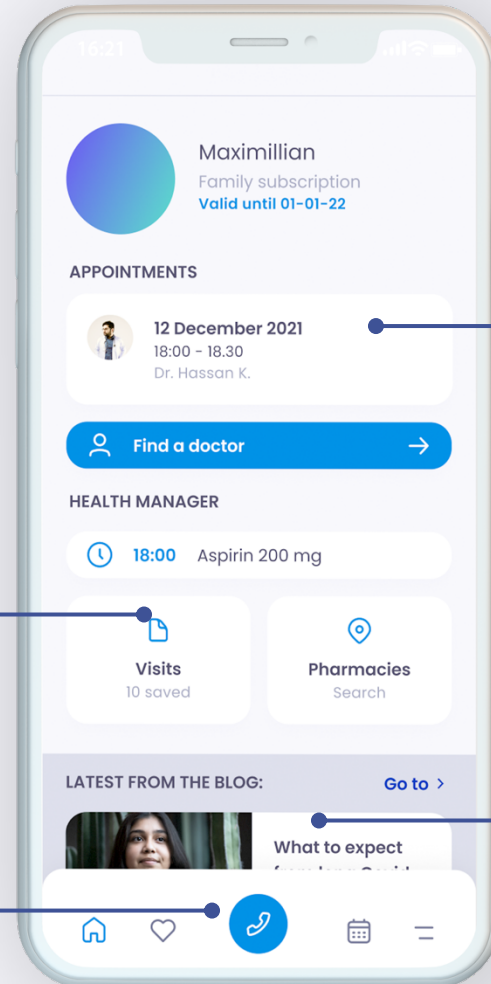

MyTeleDoc App

Health Manager

All your medical data in one place, access your past TeleDoc visits, your stored files and smart data. All fully encrypted.

24/7 Calls

Our memberships give you access to unlimited calls with our specially trained and licensed GPs. No appointment necessary.

Appointments

Find the right doctor for your issue and schedule an appointment. We provide a platform for specialists to set up their online practice where you can book an appointment. Pay-per-call (coming summer 2021)

Health Blog

Our health blog is for the small health related issues with simple treatments that often do not need a doctors visit. It will also give you an exciting insight in the healthcare sector and healthcare facts. + what TeleDoc does
